Police Data Accessibility Project
October 25, 2022 Community Call

1: Introductions →
2: Following up
3: Ecosystem updates, helping wall
4: Wrapup

Remainder: Open discussion, Q&A

Welcome

1: Introductions

Welcome! Grab a sticky note or create your own by pressing "s"

- Your name
- Your discord handle or social tag
- Something about yourself: Why are you here? Is any particular project important to you?

Josh Chamberlain
@josh__#8240

Multidisciplinary designer, working full-time on PDAP.

Add text

Flip
@flip#3394

Full time freelance software developer, looking to contribute to PDAP's software projects

Following up

2: Following up

Feel free to comment or make notes.
Answering the major thematic questions that came up last community call.

How can I contribute data / research / police transparency work?

1. We're experimenting to discover the best ways to find URLs and metadata for internet Data Sources. Look for URLs where you live manually or with creative scripts, and test our submission system!
2. Check out the #data-exchange Discord channel and our investigative process. Pose a question, and we can work together to find, access, analyze, and report on data.

How can I evangelize for PDAP?

1. Send people who love / trust you to our website at https://pdap.io. They can donate and get the newsletter.
2. Email our 1-page PDF case statement, if looking extra professional is your thing.
3. If you know relevant experts, have them reach out to contact@pdap.io.

Ecosystem & helping wall

3: Ecosystem updates & helping wall

*Create a sticky note by pressing the **s** key or finding it in the toolbar below.*

- What are you working on?
- Is there anything you're looking for help or guidance on?
- Are there exciting things going on in the world of police data?

Anyone want to help collect calls for service data? Discord thread in #data-exchange here

Josh Chamberlain

Looking to contribute Python eng skills to any scrapers which need it. Not sure how the PDAP open source contribution workflow looks like

Flip Liquid

Contributing

4: Wrapup

Thank you for being here!

Wrapup: any final thoughts? Feel free to press **s** to make a sticky ↓
